In this lecture, I would like to discuss whether time itself has a beginning, and whether it will have an end. All the evidence seems to indicate, that the universe has not existed forever, but that it had a beginning, about 15 billion years ago.

The Beginning of Time - Stephen Hawking

Religious cosmology is a way of explaining the dynamic structure and order of the cosmos or universe as a process, from a religious perspective. This may include beliefs on origin in the form of a creation myth, subsequent evolution, current organizational form and nature, and eventual fate or destiny.
