Hydrogen-induced cracking (HIC) is a far too common type of failure. It is also called hydrogen assisted cracking (HAC) and delayed cracking since it does not occur right after welding, but a few hours or days after the weld has completely cooled down to ambient temperature.

### **Factors Influencing Hydrogen Induced Cracking | WELDING ...**

Calculating weld metal requirements seems complicated but for the majority of applications it should not be. Short of having a computer program that calculates this for you, the easiest way is to use the tables found in The Procedure Handbook of Arc Welding.

Looking for symbols in threes diminishing in size to a point on a stone that appears to be a compass. Has arches with a stem, not touching on one side and slashes of a declining nature on the other.

### **Symbols of the Ancient World - symboldictionary.net**

The danger to society is not merely that it should believe wrong things, though that is great enough; but that it should become credulous, and lose the habit of testing things and inquiring into them; for then it must sink back into savagery.

### **Mathematics -- J.S. Milne**

A set square or triangle (American English) is an object used in engineering and technical drawing, with the aim of providing a straightedge at a right angle or other particular planar angle to a baseline.

### **Set square - Wikipedia**

The triangle of art represents the protected space outside the magic circle, into which spirits are compelled to appear in Solomonic ritual magic.

Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.

### **WebAssign**

Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments.
