In 1651, Harvey published the concept that all living things originate from eggs. Harvey believed that in principle organisms could be spontaneously generated, and that the process was the self-generation of a complicated machine.

Science Timeline

The Cruelty to Animals Act was the world's first legislation to regulate the use and treatment of live animals in scientific research. Known as the Vivisection Act (or Vivisector's Charter by those who opposed it), the history of its passage and the response to its administration opens a window onto nineteenth-century ideas about animals ...
