A base pair (bp) is a unit consisting of two nucleobases bound to each other by hydrogen bonds.

They form the building blocks of the DNA double helix and contribute to the folded structure of both DNA and RNA.

### **Base pair - Wikipedia**

Picking up where the original Against All Odds left off, the new series maintains the same emphasis on "doing" statistics. Each unit is based on a video module that introduces a statistical topic in real-world context and takes you on location to where people from all walks of life are using statistics in their work.
