Chapter 4 Problems Applications Solutions

Here is a set of practice problems to accompany the Polynomials section of the Preliminaries chapter of the notes for Paul Dawkins Algebra course at Lamar University.

Algebra - Polynomials (Practice Problems)

Here you will get the CBSE Class 10 Maths NCERT Exemplar Problems and Solutions of all chapters. All the questions are provided with an easy and logical explanation.

NCERT Exemplar Problems & Solutions for Class 10 Maths

In this section we will look at a couple of applications of exponential functions and an application of logarithms. We look at compound interest, exponential growth and decay and earthquake intensity.

Algebra - Applications

In this section we outline a general technique for solving 2D static linear elasticity problems. The technique is known as the `Airy Stress Function' method.

Exercises and Problems in Linear Algebra

Creationists often argue that evolutionary processes cannot create new information, or that

evolution has no practical benefits. This article disproves those claims by describing the explosive growth and widespread applications of genetic algorithms, a computing technique based on principles of biological evolution.

Genetic Algorithms and Evolutionary Computation

The Mathematics department prepares students with strong skills in mathematical communication, problem-solving, and mathematical reasoning. This solid foundation enables students to transfer to other institutions of higher education, pursue advanced studies in math or related disciplines, and be prepared with occupational and technical skills ...
