

Chemical Biomolecular Engineering Gatech

Welcome to Georgia Tech School of Chemical & Biomolecular Engineering. Established in 1901, the School of Chemical & Biomolecular Engineering (ChBE) is one of eight schools in the College of Engineering at the Georgia Institute of Technology.

Home | Georgia Tech School of Chemical & Biomolecular ...

Chemists discover and create new compounds, but it's chemical engineers who turn them into products that people need and use. Chemical and biomolecular engineers are developing frontier technologies in drug design and delivery, biotechnology, nanotechnology, alternate energy resources, and environmentally neutral manufacturing.

Chemical and Biomolecular Engineering - Georgia Tech ...

Focus: providing the basics of biomolecular engineering while allowing flexibility for the student to pursue other areas of chemical engineering such as microelectronics, materials, and the environment

Chemical and Biomolecular Engineering (BS) - Georgia Tech

The Bachelor of Science in Chemical and Biomolecular Engineering provides the basics of biomolecular engineering but allows flexibility for the student to pursue other areas of chemical engineering such as microelectronics, materials, and the environment.

Chemical and Biomolecular Engineering (BS) - gatech.edu

Chemical and Biomolecular Engineering is a branch of engineering that prepares students for an enormously varied set of career paths. Graduates have become corporate executives, plant engineers, professors, inventors, lawyers, researchers, physicians, consultants, and financial officers.

DEGREE TYPE OFFERED M.S. Ph.D. DEGREE PROGRAMS OFFERED Master's Bioengineering — CHBE Chemical Engineering Paper Science and Engineering — CHBE Doctoral

Chemical and Biomolecular Engineering | Graduate Studies ...

The mission of the School of Chemical and Biomolecular Engineering is to provide students with the intellectual basis to be educated citizens, to prepare them for successful professional careers, and to advance the science and technology that form the basis of chemical and biomolecular engineering.
