

Chemistry Solutions Lab

So, I have this lab for general chemistry where you mix a bunch a mystery solutions and then determine what they are by what color they make when they react.

Chemistry Mystery Solutions Lab Help!? | Yahoo Answers

Solutions are important to chemistry because it is the best way to mix chemicals so that they are in contact with each other. That speeds up the reaction between the chemicals. In the lab that focused on double-replacement reactions, we first made a solution of each compound and then mixed those solutions. The reactions were immediate.
