Hi All I've fitted a reverse camera to my mk6 estate and when the engine is off the camera works fine but when I have the engine running the camera won't work I have put the cable to the black/blue wire and my head unit has a reverse cable switch.

reverse camera issue - MkVI (Mk6) Golf and Jetta - uk-mkivs

The cam position sensor is critical to the proper functioning of the engine management system in its timing of engine events. The sensor delivers information on the position of the camshaft that actuates the engine's intake valves to the computer, which uses that information to deliver fuel and spark at the correct time.
