The Emory Pre-College Program offers a diverse selection of two-week non-credit courses in a variety of disciplines. Students will experience college-level academics in a small class setting with some of Emory's leading experts in their respective fields and will receive written feedback on their work at the end of the course.

Two-Week Noncredit Courses

Oxygen is a Group 16 element. While about one fifth of the atmosphere is oxygen gas, the atmosphere of Mars contains only about 0.15% oxygen. Oxygen is the third most abundant element found in the sun, and it plays a part in the carbon-nitrogen cycle, one process responsible for stellar energy production.
