"Slowing international macroeconomic conditions" is just a fancy way to say that the global economy is in big trouble. For months, I have been warning that economic conditions are deteriorating, and we just keep getting more confirmation that we are facing the worst global downturn since the last financial crisis.

The Next Great Depression - The Economic Collapse

In 1922, a pair of sociologists at New York's Columbia University were poring over 50 years of US economic and mortality data, when they noticed a surprising result.

How the next recession could save lives - nature.com

Another important part of their fiscal manifesto is the reduction of the Inheritance and Donations Tax, as well as the Corporate Tax, which they consider to be too much of a burden for entrepreneurs.
