If a species is not footnoted with a number (1-18), then the specific gravity for that species has not been verified by Wagner. In most cases, with unverified species, these species have the same botanical name as the verified version but just a different common name.

### **W \* Specific Gravity of Wood**

Dietary acids affect your body's buffering capability, which may cause a calcium loss from your bones to counteract the acidity. Also, stomach acids from frequent vomiting or acidic drinks will dissolve enamel and affect the calcium in your teeth.
