The Certificate in International Economics allows students to research the flow of capital, labor, investment and trade among nations, while obtaining the qualitative and quantitative skills necessary for economic forecasting.

Certificate and Non-Degree Programs | SAIS

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.
