haha I agree. Although I hate jquery for stealing code to claim but hey whatever!. You just re-share and repost other peoples work David. Lets not get big headed we all do it. jQuery just simply removed you from the pic and in return they saved users time.

fetch API - David Walsh Blog - JavaScript Consultant

Geb was born out of a desire to make browser automation (originally for web testing) easier and more productive. It aims to be a developer tool in that it allows and encourages the using of programming and language constructs instead of creating a restricted environment.

The Book Of Geb

I preach a lot about using shorthand CSS and using MooTools to make javascript relatively shorthand, so I look towards PHP to do the same. If/Else statements aren't optimal (or necessary) in all situations. Enter ternary operators.

PHP Shorthand If/Else Using Ternary Operators (?:)

Keep in mind that, if you prepare URL for a connection and used the urlencode on some parameters and didn't use it on the rest of parameters, it will not be decoded automatically at the destination position if the not encoded parameters have special characters that urlencode encodes it.

PHP: urlencode - Manual

The concept of “tidy data”, as introduced by Hadley Wickham, offers a powerful framework for data manipulation, analysis, and visualization. Popular packages like dplyr, tidyr and ggplot2 take great advantage of this framework, as explored in several recent posts by others.

broom: a package for tidying statistical models into data ...

The FIS User Manual is in the process of being updated for Banner 9. The majority of the manual’s content is still relevant for most FIS users, however some content may refer to Banner 8 processes that are different in Banner 9.

FIS User Manual Under Construction - Financial Affairs

We have all changed someone's life -- usually without even realizing it. In this funny talk, Drew Dudley calls on all of us to celebrate leadership as the everyday act of improving each other's lives.

Yes. The JSON format has a lot of dead-space between elements and is space-insensitive in those regions, so there's no reason why you can't have single or multi-line comments there.

Can comments be used in JSON? - Stack Overflow

Last night in the TED office, we held a salon all about spring cleaning -- for your life. Themed "A Better You," the event featured four speakers with ideas on how to make a better, happier, more productive self.
