How can I hide 0-value data labels in an Excel Chart ...

SharePoint is a handy collaborative platform from which users can usually open MS Office documents. However, a few SP users have stated in forums that they can't open Word or Excel documents in SharePoint document libraries.

FIX: SharePoint won't open Excel or Word documents

Maybe you already had the needs to extract the first and last name from a string containing the complete name of a customer. I know I did! This is a good example of the application of this article.
