PLTW: Principles of Engineering Project 1.1.6 - Compound Machine Design The Nut Cracker. Partner - Levi Meyers In this project my partner and I had to create a compound machine to accomplish a simple task. We decided on having our machine break open a nut. After brainstorming several ideas on how to break open the nut, we came to a conclusion that using a wedge was the best solution. A ...

PLTW Engineering Professional Development is a dynamic learning experience for teachers focused on robust and flexible instructional support, on-demand resources, and a close-knit community of collaboration with fellow educators.

### **PLTW Engineering | PLTW**

A lot of engineering is based on the data that is received back as feedback on products. If products get bad ratings, there is no use creating them, or it makes the engineers aware that they need to modify their design. Probability is used to sort certain materials in many design processes. Our one example was with M&M's, and figuring out the amount of each color in each bag. Some engineer, in
