Welcome to FLIR Detection, Inc. Service Portal for radiation detection and identification products. We are committed to providing our customers with quality products and services that continually meet and exceed their expectations.

Radiation Service Portal - detectionsupport.com

x Epidermal cells are positioned on the most out layer of skin and thus have the potential risk of being exposed to environmental factors. The biological effect of ionizing radiation (IR) on the skin tissue is a significant problem for medical applications, such as radiotherapy for cancer treatment.

International Journal of Radiation Oncology • ...

2. Computed Radiography, CR Level I CD-Rom Course. Computed Radiography, CR Level I is a CD-based written by Dr. Donald Hastings is a self-directed 40 hour course designed for entry level industrial radiographers.

Software for Radiation Safety Programs | Nevada Technical ...

The cosmic microwave background radiation is an emission of uniform, black body thermal energy coming from all parts of the sky. The radiation is isotropic to roughly one part in 100,000: the root mean square variations are only 18 μ K, after subtracting out a dipole anisotropy from the Doppler shift of the background radiation.

Cosmic microwave background - Wikipedia

Radiation Safety Officer Qualifications The requirements for a Radiation Safety Officer (RSO) vary with the type of license and types of materials used.

Radiation Safety Officer (RSO) Qualifications - hps.org

Radon Detector for the Student. Introduction. This ionization chamber radon detector is designed to be easy for the student or hobbyist to build and use.

Quick Radon Detector for the Student - techlib.com

X-ray, electromagnetic radiation of extremely short wavelength and high frequency, with wavelengths ranging from about 10^{-8} to 10^{-12} metre and corresponding frequencies from about 10^{16} to 10^{20} hertz (Hz).

X-rays make up X-radiation, a form of electromagnetic radiation. Most X-rays have a wavelength ranging from 0.01 to 10 nanometers, corresponding to frequencies in the range 30 petahertz to 30 exahertz (3×10^{16} Hz to 3×10^{19} Hz) and energies in the range 100 eV to 100 keV.
