Mobile Generators. The Solar Eclipse line of mobile solar generators has been developed to meet the off-grid power needs of environmentally conscious customers across a variety of industries, including emergency preparedness/relief, events, entertainment, electric vehicle charging, telecommunications, agriculture and construction.

### **Mobile Generators | DC Solar**

So what is a solar panel anyway? It is basically a box that holds an array of solar cells. Solar cells are the things that do the actual work of turning sunlight into electricity.

### **How I built an electricity producing Solar Panel - mdpub.com**

You have to break a lot of ground to find a diamond. Canadian Solar's new Dymond panel is no exception. Also known as the double-glass module, this innovative product uses heat-strengthened glass instead of the traditional polymer backsheet, and it has no metal frame so it requires no grounding.
