Acids/Bases MCAT Review and MCAT Prep ... Weak bases partially dissociate in solution. Partial dissociation occurs because the conjugate acid is fairly stable.

Acids/Bases - MCAT Review

Acids and Bases Are Everywhere Every liquid you see will probably have either acidic or basic traits. Water (H_2O) can be both an acid and a base, depending on how you look at it.

Test the pH of things like coffee, spit, and soap to determine whether each is acidic, basic, or neutral. Visualize the relative number of hydroxide ions and hydronium ions in solution. Switch between logarithmic and linear scales. Investigate whether changing the volume or diluting with water affects the pH. Or you can design your own liquid!
