

Summer Chemical Engineering Internships 2015

Professor John M. Torkelson Department of Chemical & Biological Engineering Department of Materials Science & Engineering

Torkelson Research Group

At CBU, our doors are open all summer long. Summer is the perfect time to take a class on-campus or online, or participate in one of our summer programs for middle and high school students.

Summer at CBU

Chemical engineers must have a bachelor's degree in chemical engineering or a related field. Employers also value practical experience, so internships and cooperative engineering programs, in which students earn college credit and experience, can be helpful.

Chemical Engineers : Occupational Outlook Handbook: : U.S ...

Dr Yihai Fang is a Lecturer in Construction Engineering and Management at the Department of Civil Engineering at Monash University. He received his Ph.D. in Civil Engineering from the Georgia Institute of Technology, USA in 2016.

Dr. Yihai Fang - Engineering | Monash University

Cooperative Education and Summer Internship Program. Students gain invaluable "real world" engineering experiences working with a variety of industries and governmental agencies throughout the world during our dynamic co-op/summer intern program.

Employers - Engineering Career Services - UW-Madison

Engineering education is the activity of teaching knowledge and principles to the professional practice of engineering. It includes an initial education (bachelor's and/or master's degree), and any advanced education and specializations that follow.

Engineering education - Wikipedia

Welcome to the Center for Biorenewable Chemicals (CBiRC) CBiRC will transform the chemical industry by integrating biological and chemical catalysis systems to produce biorenewable chemicals.

The Center for Biorenewable Chemicals

You want to help people. You wish to be engaged. You are preparing for your future. You want to make an impact. Choosing a university is one of life's biggest decisions, and it is based on a variety of factors, from the faculty to fellow students, campus life, career outlook, and even location and social life.

Office of Future Engineers - Purdue University

Research is in the broad area of Surface Engineering, with applications in Sensing, Energy and Nanoelectronics. REU Fellows will have the opportunity to perform research in state-of-the-art laboratories with faculty mentors, visit local high-tech companies and plan for their careers.
