A suite of field proven drilling software for oil and gas industry that improves drilling efficiency and reduces costs.

Drilling Software | Products and Services

Well drilling is the process of drilling a hole in the ground for the extraction of a natural resource such as ground water, brine, natural gas, or petroleum, for the injection of a fluid from surface to a subsurface reservoir or for subsurface formations evaluation or monitoring.

Well drilling - Wikipedia

There are several different types of drilling fluids, based on both their composition and use. The three key factors that drive decisions about the type of drilling fluid selected for a specific well are:

Water Shut-Off in Oil Production Wells - Lessons from 12 Treatments. Abstract In the past few years water shut-off treatments in production wells have started to become accepted as part of standard well service work. The benefits from a successful t

Water Shut-Off in Oil Production Wells - Lessons from 12 ...

Dubai Crude is a medium sour crude oil extracted from Dubai. Dubai Crude is used as a price benchmark or oil marker because it is one of only a few Persian Gulf crude oils available immediately.

Dubai Crude - Wikipedia

Spacing and target areas for oil wells. 6 (1) In each pool, the target area for an oil well in a normal spacing area at any depth is the area inside, but not nearer than 100 m to the sides of, the spacing area.

Drilling and Production Regulation - Laws Publications

1. Introduction. Cuttings are a valuable source of information when drilling oil and gas wells. One of the major issues that may arise during drilling is the presence of abnormal cuttings/cavings which indicate that a failure has occurred downhole.

An approach for wellbore failure analysis using rock ...

Friction Pressure Loss (FPL) Frictional Loss; Where Friction Loss Occurs; Density Effect on Circulating Pressure; Pump Speed Effect on Circulating Pressure

Well Control School - System 21

Mounted inside the possum belly, this gas trap increases gas liberation from the drilling fluid. By being tall and relatively narrow, it is less sensitive to level changes than the standard box ...

Gas-detection technology improves reservoir interpretation ...

In petroleum and natural gas extraction, a Christmas tree, or "tree", (not "wellhead" as sometimes incorrectly referred to) is an assembly of valves, spools, and fittings used for an oil well, gas well, water injection well, water disposal well, gas injection well, condensate well and other types of wells.

Christmas tree (oil well) - OilfieldWiki

In Petroskills' Production Operations training course, you'll understand past, proven & newer technologies, procedures & techniques to improve & increase oil, gas, & condensate production.

Production Operations Training Course | PetroSkills PO1

Mr. Ian Allahar IAN ALLAHAR is a Petroleum Engineer with more than 18 years of experience in the oil and gas industry. He specializes in several operations involved in well bore construction including drilling, well intervention and remedial operations.
